Of the nine(9) members of the U.S. Supreme Court, four(4) are Jews or partial Jews. This is a numerical representation of 44%. Jews are approximately 2% of the United States

population.\* This means that Jews are over-represented among the members of the U.S. Supreme Court by a factor of 22 times, or 2,200 percent. This extreme numerical over-representation of Jews among the members of the U.S. Supreme Court cannot be explained away as a coincidence or as the result of mere random chance.
